

00:24:42 Larissa Yaple: I lost my voice this weekend—I sent my bio to Dave!

00:24:59 Larissa Yaple: Hey Dave! I lost my voice this weekend doing 1000 zoom meetings so I'm providing mine in writing: I work for my families tree service business in Sheffield, MA. My father, Ron Yaple, Race Mountain Tree Services and my brother Kieran are certified arborists, MA, NY, CT. I 99% of the time perform office manager duties and am here to expand my knowledge. I also serve on my town's tree committee so I'm looking forward to your talk!

00:27:53 Bret Beattie: Audio video problems

00:29:49 Larissa Yaple: Thanks!

00:32:31 Ian: Hi David, Ian Briggs here. My mic is patchy. Interested citizen looking to get my feet wet in arboriculture. Looking forward to your presentation. Cheers

00:33:34 sam :-) they/them: how do you get certified as an arborist in your state?

00:40:01 michael gilman: Im Think I may have missed you call my name. Me and Matt Kipnes both work with a municipality. We work for The Barnstable Dpw doing tree work. We are both ground guys, just looking to further our education and knowledge of trees and tree care.

00:41:53 Ellen Weeks: To become a Massachusetts Certified Arborist, get the study guide and pass the text offered by the Massachusetts Arborists Association.

00:42:28 sam :-) they/them: I'm in Rhode Island. do you get different ones in each state?

00:44:17 Matthew kipnes: Matt kipnes here town of barnstable municipal employer in the forestry division furthering my knowledge by taking this course

00:44:58 Claire Corcoran: Hi I'm Claire Corcoran from Boston. I have an MF degree and worked for the Mass Heritage Program as an ecologist before I became a stay at home mom I recently regained my MCA certification and I am an urban forestry advocate in Boston. I am really interested in gas leaks and how they impact street trees in cities.

00:45:15 Robert Graham: Hi, I'm Robert Graham. I'm the landscape gardener at tower hill botanic garden in Boylston Massachusetts. I'm kind of the jack of all trade at the garden and do a lot of tree removal amongst other grounds keeping. I'm hoping to do more of the maintenance in the future. I have a GIS and Biology background and am excited to hear about Itree

00:45:22 michael gilman: I wrote mine right above Ellen weeks message.

00:46:17 Carol Greene: Hi Carol Greene here ... I have a back ground in Forest Management and currently work at UMass as a Faculty Assistant, but would love to get back into working with trees – have really enjoyed the course and look forward to exploring more opportunities moving forward.

00:46:42 chad: morning, cant get my mic to work. I work on the Cape. Got my first job in the field when I was 18 and have loved tree stuff ever since. Ive been doing plant health care for the past 12–13 years and have been self employed for the past 5. This course has been

great, always more to learn.

00:46:53 Bret Beattie: Bret Beattie, I work in North Adams, Ma on a USFS urban tree planting grant.

00:47:01 erosner: Edward Rosner from umass landscape management, general interest in all things landscaping with focus on sustainability/native landscaping

01:01:40 Janine Anderson: Where is the best place to buy forestry tools?

01:03:44 Marc Fournier: Shelter Tree, Orchard Equipment Supply (OESC0), & Cleaves Co. are a few good ones...

01:04:37 Robert Graham: I like <https://www.treestuff.com/> for online shopping

01:05:12 chad: treestuff.com also

01:06:46 Jimmy Bridges: You also have some landscape supply places like siteone and some small things like hand pruners and shovels and handsaws you can find at Lowes or Home Depot

01:20:13 Ian: How often is iTree updated? Does it recognize changes to landscape/topography? Do you rely on citizens to share data for updates, satellite, GIS?

01:20:30 Claire Corcoran: Are there competing software programs and why is iTree better?

01:28:17 sam :-) they/them: i'm looking for it

01:28:25 sam :-) they/them: on my phone

01:31:31 sam :-) they/them: i didn't understand trunk size

01:35:01 sam :-) they/them: quesiton: what is diameter vs. circumference

01:36:10 sam :-) they/them: actually ignore that.

01:42:23 sam :-) they/them: yes

01:42:34 sam :-) they/them: yes

01:42:59 michael gilman: very cool.

01:43:02 Claire Corcoran: I use it all the time in advocacy.

01:56:56 sam :-) they/them: thanks

02:13:05 sam :-) they/them: wait is it better to chip a tree or use the wood to build things?

02:17:40 sam :-) they/them: thank!

02:27:04 Claire Corcoran: Are those future numbers in today's dollars?

02:30:58 sam :-) they/them: so you use itree canopy on existing itree projects?

02:32:15 sam :-) they/them: shrub

02:32:19 Sonja Johanson: shrub

02:34:14 sam :-) they/them: other

02:39:05 Claire Corcoran: Where do I get the extension for the Mac to use these tools?

02:39:23 sam :-) they/them: so who do you think is the main client for itree canopy? developers? how would i use it to make an argument?

02:46:22 David Bloniarz: bootcamp

02:49:44 sam :-) they/them: do you like bootcamp or parallels better? for mac?

02:52:19 Claire Corcoran: Thanks David, great class!

02:56:12 sam :-) they/them: so is itree eco for whole cities?
02:56:22 sam :-) they/them: so these aps scale up?
02:56:44 sam :-) they/them: and how do we save our stuff? is it
in the cloud?
02:59:32 Sonja Johanson: Trees have high VOV emissions?
03:03:27 sam :-) they/them: what does VOV stand for again?
03:03:44 Claire Corcoran: vol
03:03:59 sam :-) they/them: i meant VOC
03:04:19 sam :-) they/them: our quiz is due by thurs but quiz
opens at 5
03:06:01 Paul: is it unri.org/research-documents/?
03:07:19 Carol Greene: Thanks!!
03:10:44 Axel Boy: thank you all, got to sign off
03:11:16 Graham: thank you
